

Decorative and ornamental films

Create an atmosphere, adorn and enhance existing glass surfaces:

with OPALFILM® ornamental and decorative films you can create privacy, partition a room or enhance glass panels while at the same time augmenting the design.

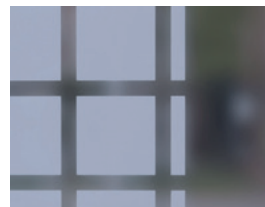

Our design film is available in a wide range of different colors and patterns and in varying degrees of translucency and transparency, and they can be perfectly integrated into any room design. The self-adhesive window films give a brand new appearance to windowpanes, room partitions, display cabinets and doors. Moreover, they can be used to provide discreet markings on full-glass doors and partitions, as frequently found in modern buildings.

OPALFILM® ornamental and decorative films are available in a range of material thicknesses and, optionally, with a level of shatter protection that complies with EN 12600.

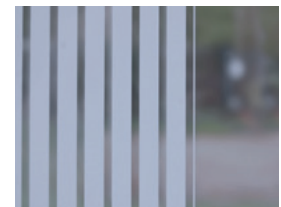

Areas of application:

- Trade fair construction
- Sanitary facilities
- Glass partitions
- Glass doors
- Through doors
- Meeting rooms
- Laboratories
- Window surfaces in residential buildings
