

 **OPALFILM®**

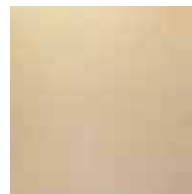

## Sun protection films

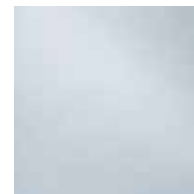

**OPALFILM® sun protection films provide protection against direct sunlight and excessive heating-up. They create a balanced room climate in summer and reduce heat loss in winter. The films are available in varying intensities and shades and can therefore be chosen to meet every need.**

OPALFILM® sun protection films have a scratch insensitive, cleaning-friendly surface. They are suitable for all glass surfaces, e.g. in conservatories, factory buildings, offices, homes, shop windows etc. The sun protection films are available in both indoor and outdoor versions and in many different variations.
